SUMMARY

PHP/Laravel Developer and BS Information Technology graduate with over a year of hands-on experience building web applications through academic, internship, and independent projects. Experienced in object-oriented PHP, Laravel, MySQL, relational database and SQL schema design, RESTful APIs, RBAC, Git, automated feature testing, and application debugging. Built and deployed systems spanning HR operations, CRM workflows, academic management, and government project monitoring.

EXPERIENCE

HR & IT Intern · Atkins Import & Export Resources Inc.

February 2026 - May 2026

- Gathered requirements from HR stakeholders and designed and developed an internal Laravel-based Recruitment & Employee Records Management System around actual department workflows.
- Implemented applicant tracking, interview scheduling, employee records, dashboards, reporting, and relational workflows using Laravel, PHP, MySQL, and Bootstrap.
- Tested workflows with users, incorporated feedback, troubleshoot application issues, and prepared the system for LAN deployment through Apache Virtual Host.

Crew Chief · McDonald's Malainen Bago

October 2023 - Present

- Led a team of 10+ crew members in a high-volume environment, maintaining service efficiency and accurate order fulfillment during peak hours.
- Strengthened team communication, problem solving, accountability, and customer-facing support skills.

PROJECTS

ClientPilot AI - CRM & Sales Management Platform

June 2026 - Sep 2026

- Developed a Laravel + React CRM supporting leads, deals, activities, tasks, role-based access control, and sales assignment workflows.
- Implemented Laravel policies, request validation, relational data models, role-specific data access, and backend workflows designed around secure business rules.
- Added automated PHPUnit/Laravel feature tests covering authentication, authorization, assignment rules, HTTP responses, database state, and regression scenarios.

Naic-OpenGov - Project Monitoring & Budget Tracking System

April 2026 - May 2026

- Built a full-stack Gov-Tech platform with Laravel, MySQL, Bootstrap, interactive maps, analytics dashboards, RBAC, audit logs, and a public transparency portal.
- Designed relational data models and project, budget, notification, and monitoring workflows to centralize municipal information and improve oversight.

HR Recruitment & Employee Records Management System

Internship Project

- Developed the internal system with Laravel, PHP, MySQL, and Bootstrap, including applicant tracking, interview scheduling, employee 201/202 records, activity timelines, dashboards, and reporting.
- Deployed the application through a LAN-based Apache Virtual Host setup for real workplace use.

LSHS Online Management Information System (Capstone Project)

February 2025 - October 2025

- Developed a multi-role academic management system for 100+ student records using Laravel 12, Livewire, Bootstrap, PostgreSQL/MySQL, and RBAC.
- Implemented enrollment, grading, academic records, announcements, exports, and audit workflows; containerized with Docker and deployed on Render.

TECHNICAL SKILLS

Backend: PHP, Laravel 12, RESTful APIs, MVC, OOP, Authentication, RBAC

Frontend: JavaScript (ES6+), React.js, Livewire 3, HTML5, CSS3, Bootstrap, Tailwind CSS

Databases: MySQL, PostgreSQL, Relational Database Design, SQL Schema Design

Testing & Debugging: PHPUnit, Laravel Feature Testing, Browser DevTools, Application Debugging

Development & Deployment: Git, GitHub, Docker, Render, Vite, npm, Composer, XAMPP, Apache Virtual Host

EDUCATION

Cavite State University - Naic, Cavite

September 2022 - September 2026

Bachelor of Science in Information Technology

LANGUAGES

English, Filipino
